

### **BLM 3 Electing a representative**

*A person is being chosen to represent the class on a new school environmental group with links to a local community environment group. Four people have declared that they are interested in the position. The vote is going to be decided by hands up and the person with the most votes is going to be chosen.*

- Person 1     Your best friend is interested in being on the committee but you feel that another person in the class is knowledgeable about environment issues and has real passion for the environment.
- Person 2     The super popular person in the class who is having a party on the weekend and you really want to be invited.
- Person 3     The knowledgeable and passionate environmentalist in the class.
- Person 4     A person who can get quite aggressive if they don't get what they want.

What issues are raised in choosing this representative?

Make notes to share with your group.
